

WACOM® Movink

Seize the moment with a professional tool that's always ready to go

Wacom Movink is our lightest, slimmest, and most portable professional-level creative pen display ever. With its innovative OLED display, unprecedented compatibility and connectivity, and enhanced functionality in a truly portable package, Wacom Movink empowers you to bring your studio along no matter where your creative journey takes you.

Professional power in a portable package

As little as 4mm thick, weighing less than 1 lb (420 g), and with an extremely slim bezel, every inch of Wacom Movink's 13.3" full HD screen is used to powerful effect. This level of performance has never been so portable.

The OLED experience

OLED is lighter and thinner than LCD, but that's not all - the pen-on-screen experience is upgraded in every way. It has no visible parallax, a higher pen detection height, and its faster response time lowers pen latency below 1ms. Pen abled LCDs rarely deliver this kind of performance.

The screen offers a contrast ratio of 100,000:1 which is 100 times more than an LCD, enabling true blacks and more saturated colours thereby producing richer and natural output images. Its anti-glare surface also offers resistance to colour distortion, no matter how powerful your pen pressure gets.

Because OLED works without a backlight, Wacom Movink has no light leakage. This has also allowed us to reduce harmful blue light, earning Movink's certification as an "Eye Care Display."

Seamless connectivity

A single, flexible USB-C cable* makes connection as simple as possible. Compatibility with Windows, MacOS, ChromeOS, and some Android devices means you can plug in and get right to creation whenever and wherever inspiration strikes. It also works with whatever software you prefer. And with its Wacom Bridge support, remote desktop workflows are intuitive and efficient.

Universal pen compatibility

Wacom Movink comes with Wacom's updated Pro Pen 3, featuring integrated nib storage**, but also supports multiple pen technologies including Wacom Pro Pen 2 and third-party pens.

Customize your creativity

Our touch technology means customizing your gesture controls to fit your workflow. The display button allows easy toggling between functions such as the on-screen display menu, turning touch on/off, or using ExpressKeys™ and two customizable touch keys extend productivity further.

Key features:

- Ultra-bright, high-contrast, full HD 13.3" OLED screen
- Only 4-6mm thick, weighs under 1 lb (420 g)
- Runs cool with no excess heat
- Updated Pro Pen 3 with integrated nib storage
- No visible parallax or colour distortion, < 1ms pen latency
- Dual pen technology: supports Wacom Pro pens or third-party pens
- Reduced blue light levels alleviates eye strain
- Enhanced multi-touch gesture control technology
- Single USB-C cable* for simple connectivity
- Multi-OS compatibility
- Customizable ExpressKey™ shortcuts, touch keys and tablet button
- Comprehensive bundle of free software trials
- Wacom Bridge support
- Device-specific accessories (sold separately)

*Requires USB-C with DP Alt mode or USB-C Thunderbolt.

**Use of Wacom Pro Pen 3 customizable parts (weight, grip thickness, pen buttons and center of balance) requires having or purchasing a Wacom Pro Pen 3.

WACOM® Movink

Specifications

Model	Wacom Movink 13
Model Number	DTH135
Display Size* / Resolution / Aspect Ratio	13.3 in (diagonal) / Full HD 1920 x 1080 / 16:9
Active Area*	294 x 165 mm (11.6 x 6.5 in)
Product Dimensions* (W x H x D)	319.5 x 205.2 x 4~6.6 mm (12.6 x 8.1 x 0.16~0.26 in) Thinnest: 4 mm (0.16 in), Thickest: 6.6 mm (0.26 in)
Product Weight*	420 g (14.8 oz)
Colour Performance	1.07 billion colours (10bit x RGB = 30bit), 100% DCI-P3 (CIE 1931) (typical), 95% Adobe® RGB (CIE 1931) (typ)
Display Colour Profile Options	Native / Adobe RGB / DCI-P3 / Rec.709 / Rec.2020 / Display P3 / sRGB / EBU, Custom: Colour Temperature 5000K / 5700K / DCI-P3 (6300K) / 6500K / 7500K / 9300K, Gamma, RGB Gain / Offset
Display Certificates	Pantone™ Validated, Pantone SkinTone™ Validated, Eye Care Display by SGS
Display Viewing Angle	170°(85 / 85) H, (85 / 85) V (typ)
Display Refresh Rate / Response Rate	60Hz / 0.2 ms
Display Brightness / Contrast Ratio	350 cd/m² (typ) / 100,000:1
Power Consumption	15W or less
Connectivity	USB-C port with DisplayPort™ Alt Mode
Multi-touch	10 finger multi-touch featuring available selective touch with Grid and Radial Menus. Virtual and physical switch tablet button to turn multi-touch on and off; system default gestures (1-finger or 2-finger) are supported, pan, zoom and rotate gestures available in most applications including Adobe® Photoshop® and Illustrator®; 3-finger gestures and above can be customized through Wacom Center.
